Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 – 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent Application No. 2002/0091573 (Hodes).

With respect to claims 1 – 19, note that Hodes teaches a system that provides telephone response unit based services including a POS terminal 302, Fig. 43 – 45 and 49 – 50, phone based services 0096, IVR (paragraph 0160), status information (paragraph 0176), account information (0090, 104 and 106), magnetic stripe 64, smart card (paragraph 0110), bar-coded card and RFID (paragraph 0016), store valued card (paragraph 00050), and a smart chip (paragraph 0015). In addition, note the Abstract and the Summary of the Invention.

With respect to the presently added steps in the amended method claims, such steps are so well known in the art that no additional art need be supplied. The added receiving step, searching step and returning step would be part of any handshaking in this art. With respect to the newly added last step of maintaining and an account balance at the host computer, this is how these systems work. This is how one's debit card gets denied at a POS. The host keeps a balance of what is in the account, if there is not enough money in the account the sale is declined.

Response to Arguments

Applicant's arguments with respect to claims 1- 19 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
